- The customized map size has an error rate of 0.5% due to artificial involvement in cutting. Each of the map's 4 sides has 1cm blank area left for map mounting. Therefore, the map's picture size should minus 2 cm for both its length and height;
- Your company name will be, by default, added into the map;
- Table of China's Gas Power Projects** introduces each project's name, province, city, status, company;
- Industry research statistics tables in analyst edition maps introduce the latest 17 years' data officially published by China's state statistics authority. Please note that nationwide data from state authority will be published during June and be delayed, as a practice, by two years. Therefore, the latest year that contains statistics data will be "the year before last year".

Step 2: Select (☑) Other Services
